# LEARNING TOGETHER AT HOME: WEEK 4

## Early Years Northumberland

It's week 4. Here are some fun activities for you to try at home all about 'springtime'. Have fun doing them together!

Go on a seed hunt. Which foods might you find one in? Plant a seed you find and see what happens. Don't forget to put it in a sunny place and water it!

Sing the sleeping bunnies song. You could make a bunny headband to wear while you play.

Help your grown up with some simple spring cleaning jobs. You could dust the surfaces inside or sweep away old leaves outside.

Make a nest for new birds using things you find in your house or outside. Or make a cosy 'nest' for yourself using blankets and cushions and snuggle up inside.

Play Kim's Game with spring themed things you can find in your house, around your garden or on a walk. For instructions on how to play this simple game, click [here](#). Use fewer objects for younger children.

Click [here](#) to see Catrin practicing her cutting skills.

Can you take a selfie of you and your grown up next to a sign of spring?
